

Reliability
for all your
motorcycle needs

Quality Endurance Passion

A Partner you can rely on

With Gulf you get the benefit of more than 100 years global experience and technical innovation.

With operations in over 100 countries, Gulf remains committed to customer service with a range of lubrication solutions tested and proven to give the best performance in motorcycle and scooter 2-stroke and 4-stroke applications.

Our values are at the heart of everything we do, and it's our passion and commitment to our customers that really sets us apart – offering the personal attention that is sometimes lacking in other large organisations.

If you love the exhilaration of riding and the thrill of the open road, then you'll want your bike to run smoothly and perform effectively. For today's modern bikes, lubricants have to work harder than ever to ensure optimum performance and reliability.

Gulf lubricants are designed to give superior acceleration, performance and protection for every type of on-road and off-road bike. From Tourers to Superbikes, weekend rider to racer, you can trust our lubricants to deliver, whatever the conditions.

If you rely on your bike for work, in either stressful city commutes or long distance travel, then we also have lubricants to suit your needs and riding conditions.

Gulf's expertise has evolved by working closely with leading motorcycle and scooter manufacturers and race teams, to understand the latest engine developments and to meet evolving emissions legislation and market requirements. We also listen to our customers to learn about their needs.

Combining this knowledge, we aim to help you in many ways: whether you are looking for superior acceleration, continuous protection, fuel economy, reduced smoke or improved reliability to keep your bike on the road, we can offer a solution.

You can rely on Gulf lubricants to provide uncompromising performance, for all types of motorcycle and scooter, for every climate, for every country and for every type of riding condition.

“ Gulf products offer superior performance and protection to ensure your bike or scooter performs effectively. ”

Leisure

Our leisure range of engine oil lubricants are designed to give superior acceleration, performance and protection for every type of on-road and off-road bike. From Tourers to Superbikes, weekend rider to racing, you can trust our products to deliver, whatever the conditions.

The Gulf motorcycle and scooter engine oil range covers the majority of bike applications in the market. Our products satisfy the latest manufacturer specifications and industry standards, so you can be assured that your bike will perform as intended.

Gulf Pride 4T 10W-40, 15W-40, 15W-50, 20W-40, 20W-50

Premium quality 4-stroke gasoline engine oil developed specifically for the latest high performance air-cooled 4-stroke motorcycles. Blended from highly refined base oils and performance additives to provide excellent protection for engine, gearbox and wet clutch used in 4-stroke motorcycles.

FEATURES AND BENEFITS

- Excellent anti-wear properties protect vital engine and gear components, leading to reduced maintenance costs
- Controlled frictional properties eliminate wet clutch slippage, leading to increased power, fuel economy and improved drivability
- Good thermo-oxidative stability prevents harmful deposit formation and controls oil thickening, facilitating extended engine and oil life
- Active cleaning agents ensure engine cleanliness, leading to faster heat dissipation and longer engine life
- Effective rust and corrosion inhibitors ensure longer life of critical engine components.

SPECIFICATIONS

API SG | JASO MA

Exceeds requirements of leading global 4-stroke motorcycle manufacturers.

“ We know you are passionate about your bike or scooter and want the best possible performance at all times.”

Gulf Power Trac 4T 10W-40

Premium quality semi-synthetic 4-stroke gasoline engine oil developed specifically for the latest high performance air-cooled 4-stroke motorcycles. Blended from premium quality base oils and advanced additive technology to exceed the most demanding lubrication needs of modern 4-stroke motorcycles, across a wide range of ambient temperatures. Provides excellent protection for engine, gearbox and wet clutch, even under severe operating conditions.

FEATURES AND BENEFITS

- Superior thermo-oxidative stability prevents harmful deposit formation and controls oil thickening, facilitating extended engine and oil life
- Exceptional anti-wear properties protect vital engine and gear components, leading to reduced maintenance costs
- Optimised frictional properties eliminate wet clutch slippage, leading to increased power, fuel economy and improved drivability
- Active cleaning agents ensure engine cleanliness, leading to faster heat dissipation and longer engine life
- Excellent shear stability maintains viscosity under high temperature-high shear environment and provides improved wear protection
- Outstanding low temperature properties enable easier start-up at low ambient temperatures, ensuring effective lubrication and wear protection
- Effective rust and corrosion inhibitors ensure longer life of critical engine components.

SPECIFICATIONS

API SL | JASO MA

Exceeds requirements of leading global 4-stroke motorcycle manufacturers.

Gulf Pride 2T

High quality 2-stroke motorcycle and scooter lubricant for use in air-cooled engines. Blended from high quality base oils and fortified with carefully selected additives to provide excellent protection and cleanliness.

FEATURES AND BENEFITS

- Excellent lubricity protects against piston scuffing and premature wear of engine components
- Proven additive technology controls engine and exhaust system deposits
- Low ash technology prevents pre-ignition and spark plug fouling
- Easy mixability with gasoline ensures stable homogeneous mixture even at low ambient temperatures
- Suitable for both oil-injection and premix lubrication systems; follow manufacturer's recommendation for the oil to fuel ratio.

SPECIFICATIONS

API TC | JASO FB

Commuter

Our commuter range of engine oil lubricants helps to protect your motorcycle or scooter during stressful everyday commutes in the city or long distance travel. Whatever the conditions, our lubricants deliver superior performance, protection and reliability at all times.

The Gulf motorcycle and scooter engine oil range covers the majority of bike applications in the market. Our products satisfy the latest manufacturer specifications and industry standards, so you can be assured that your bike will perform as intended.

Gulf Pride 4T 10W-40, 15W-40, 15W-50, 20W-40, 20W-50

Premium quality 4-stroke gasoline engine oil developed specifically for the latest high performance air-cooled 4-stroke motorcycles. Blended from highly refined base oils and performance additives to provide excellent protection for engine, gearbox and wet clutch used in 4-stroke motorcycles.

FEATURES AND BENEFITS

- Excellent anti-wear properties protect vital engine and gear components, leading to reduced maintenance costs
- Controlled frictional properties eliminate wet clutch slippage, leading to increased power, fuel economy and improved drivability
- Good thermo-oxidative stability prevents harmful deposit formation and controls oil thickening, facilitating extended engine and oil life
- Active cleaning agents ensure engine cleanliness, leading to faster heat dissipation and longer engine life
- Effective rust and corrosion inhibitors ensure longer life of critical engine components.

SPECIFICATIONS

API SG | JASO MA

Exceeds requirements of leading global 4-stroke motorcycle manufacturers.

Gulf Pride 4T Plus 20W-40, 20W-50

Premium quality 4-stroke gasoline engine oil specifically developed for the latest high performance air-cooled 4-stroke motorcycles. Its superior quality high viscosity index base oils and specially selected performance additives provide excellent protection for engine, gearbox and wet clutch, even under severe operating conditions.

FEATURES AND BENEFITS

- Outstanding thermo-oxidative stability prevents harmful deposit formation and controls oil thickening, facilitating extended engine and oil life
- Exceptional anti-wear properties protect vital engine and gear components, leading to reduced maintenance costs
- Controlled frictional properties eliminate wet clutch slippage, leading to increased power, fuel economy and improved drivability
- Active cleaning agents ensure engine cleanliness, leading to faster heat dissipation and longer engine life
- Excellent shear stability maintains viscosity under high temperature-high shear environment and provides improved wear protection
- Low volatility characteristics reduce oil consumption and hydrocarbon pollution
- Effective rust and corrosion inhibitors ensure longer life of critical engine components.

SPECIFICATIONS

API SJ, SL | JASO MA

Exceeds requirements of leading global 4-stroke motorcycle manufacturers.

Gulf Syntrac 4T 5W-40, 10W-40

Superior performance synthetic 4-stroke gasoline engine oil specifically developed for the latest high-powered air-cooled 4-stroke motorcycles. Blended from premium quality base oils and advanced additive technology to exceed the most demanding lubrication needs of modern 4-stroke motorcycles, across a wide range of ambient temperatures. Provides excellent protection for engine, gearbox and wet clutch, even under severe operating conditions.

FEATURES AND BENEFITS

- Ensures highest degree of reliability, even under severe operating conditions
- Outstanding thermo-oxidative stability prevents harmful deposit formation and controls oil thickening, facilitating extended engine and oil life
- Exceptional anti-wear properties protect vital engine and gearbox components, leading to reduced maintenance costs
- Optimised frictional properties eliminate wet clutch slippage, leading to increased power, fuel economy and improved drivability
- Active cleaning agents ensure engine cleanliness, leading to faster heat dissipation and longer engine life
- Outstanding low temperature properties enable easier start-up at low ambient temperatures, ensuring effective lubrication and wear protection
- Low volatility characteristics reduce oil consumption and hydrocarbon pollution
- Effective rust and corrosion inhibitors ensure longer life of critical engine components.

SPECIFICATIONS

API SL | JASO MA, MA2

Exceeds requirements of leading global 4-stroke motorcycle manufacturers.

Gulf Pride 2T

High quality 2-stroke motorcycle and scooter lubricant for use in air-cooled engines. Blended from high quality base oils and fortified with carefully selected additives to provide excellent protection and cleanliness.

FEATURES AND BENEFITS

- Excellent lubricity protects against piston scuffing and premature wear of engine components
- Proven additive technology controls engine and exhaust system deposits
- Low ash technology prevents pre-ignition and spark plug fouling
- Easy mixability with gasoline ensures stable homogeneous mixture even at low ambient temperatures
- Suitable for both oil-injection and premix lubrication systems; follow manufacturer's recommendation for the oil to fuel ratio.

SPECIFICATIONS

Services

you can trust

Gulf can offer you more than just leading lubricant technology. Additional services can support you from technical advice to guidance on environmental aspects of lubricant usage. In the event of a performance issue, Gulf can provide analysis of used oil samples to try and identify the cause.

If you have any questions about lubrication, please speak with your Gulf contact.

“ Gulf has a reputation for quality and this is reflected through the brand and organisation from its products, to its services and people. ”

At Gulf, we have dedicated ourselves to working with each of our customers to understand their needs, solve their lubrication issues and build a long-term relationship based on trust and performance.

Whatever your needs, you can depend on us to create and recommend the right solutions at the right time.

To discuss your needs in more detail, or if you want to find out more information, please get in touch with your local Gulf representative.
